Bath Hardware Tip 1: **Decorative Bathroom Hardware**

Category	Description	Styles and Finishes	Key Features
Towel Bars and Towel Rings	Towel bars and rings are essential for both functionality and style in a bathroom, offering spaces to hang towels of various sizes.	Brushed nickel, polished chrome, oil-rubbed bronze, matte black	- Longer towel bars suitable for bath towels - Rings for space-saving hand towel placement - Installation at varying heights for layered or family-friendly aesthetics
Toilet Paper Holders	Often overlooked, these practical fixtures can complement the overall design with cohesive finishes and functional enhancements.	Metal finishes, wood accents, glass elements, ceramic components	- Wall-mounted for space-saving and clean lines - Freestanding for flexibility - Options with small shelves for added convenience
Robe Hooks	Compact fixtures that maximize vertical space, providing spots for robes, towels, or clothing, while adding decorative interest.	Single, double, or triple hook configurations	- Ideal for tight spaces - Suitable for organized, family-friendly use - Can be arranged as a functional art wall in geometric patterns
Soap Dishes and Soap Dispensers	Stylish accessories that elevate bathroom decor while maintaining functionality for soaps and liquid dispensers.	Stainless steel, glass, ceramic, acrylic	- Wall-mounted or countertop options - Built-in dispenser options for streamlined design - Coordinated finishes for cohesive aesthetics
Bathroom Shelves	Blend storage with style, addressing the need for practical yet visually pleasing solutions.	Floating, glass, metal, wood, corner shelves	- Space-saving corner designs - Tiered shelving for vertical storage - Built-in recessed

			shelves for seamless integration
Vanity Hardware	Small yet impactful elements that complete the look of vanities and bathroom cabinets.	Classic knobs, bar pulls, vintage designs, minimal options	- Match or mix metals for style - Ergonomic choices for ease of use - Adds personality to overall bathroom aesthetic

Bath Hardware Tip 2: **Safety Bathroom Hardware**

Safety Feature	Purpose	Key Types / Designs	Additional Details
Grab Bars	Prevent falls near toilets, showers, and bathtubs by providing sturdy handholds.	- Straight (horizontal/ vertical/angled) - Angled (multiple grip positions) - Folding (swings up/out of the way) - Wall-mounted (anchored to studs) - Floor-to-ceiling (no wall mounting required) - Suction-cup (temporary/ portable)	Available in various finishes (e.g., chrome, brushed nickel) with options for textured grips or integrated features like shelves.
Raised Toilet Seats	Elevate toilet seat height for easier sitting and standing, reducing strain for individuals with mobility issues.	- Attach to existing toilets via brackets - Replace standard seats - Models with armrests for extra support	Stylish options include padded models and finishes like wood-grain, as well as functional designs that blend with bathroom decor.
Shower Seats	Provide a seated option for safer and more comfortable showering, especially for those with balance or endurance difficulties.	- Foldable (wall-mounted, space-saving) - Fixed (built-in tiled benches or mounted models) - Material options like teak, plastic, or padded seats	Built-in benches enhance safety and add spa-like elegance. Choose materials based on maintenance needs and decor style.
Safety Towel Bars	Serve as dual-purpose fixtures functioning as towel holders while providing stability and	- Heavy-duty construction - Rigorous testing	Designed to match standard towel bars in finishes and styles, allowing safety features

support.	to ensure weight capacity	to blend seamlessly into the decor.
